Claim 32 is objected to because of the following informalities: The term “O-mycarminose” when representing variables R2 and R5 is misspelled. Appropriate correction is required.

Claims 32-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no disclosure in the specification, as originally filed, for the variable R2 representing desosamine and O-megosamine (claim 32). There is no disclosure in the specification, as originally filed, for the variable R5 representing O-cladinose and O-megosamine (claim 32).

Claims 32-37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The terminology “alternatives from the group: -CO-, -CH(OH)-, alkene –CH-, and CH2);” renders claim 32 indefinite since there is no antecedent basis for said terminology.

There is no antecedent basis in claim 32 for the terminology “methylated derivative[s]” (claims 33-37).

Applicant's arguments filed May 26, 2009 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
